**RUN UWI RUN** As The University of the West Indies embarks upon its 60<sup>th</sup> anniversary celebrations, sport and physical education continues to be at the forefront. Participation by students and staff in the UWI SPEC International Half Marathon has grown tremendously, and that includes not only the St. Augustine Campus, but the other campuses throughout the region.

Our cover story which features the road running winners in The University of the West Indies Staff category tells much about what is happening with regard to the emphasis on fitness and wellness at the University.

The Centred department also highlights the physical education degree initiative in which 100 secondary school physical education teachers begin the journey toward acquisition of their Bachelors Degree in Physical Education – Secondary. A dream come true for so many of us within this discipline.

Yet again we feature our champion athletes both old and new while describing some of our initiatives including our unique perspective on the local dog show arena.

Our informative sport business, body talk and referenced departments continue to provide information and insight into what is happening in sport and physical education in Trinidad & Tobago and the Caribbean.

We hope that you keep up your conversations with us at [iva@sped-online.com](mailto:iva@sped-online.com) and do continue to enjoy!
